PROFESSIONAL SUMMARY

Result-oriented **Java Backend Developer** with hands-on experience in building scalable microservices, REST APIs, and database-optimized solutions using **Spring Boot, Core Java, and MySQL**. Strong foundation in **OOP, Multithreading, and Software Design**, complemented by applied **AI/ML experience** in computer vision and image processing. Skilled at bridging data-driven models with production-grade systems to deliver reliable, high-performance applications.

EDUCATION

- Indian Institute of Technology and Indian Institute Of Management** Indore, India
Masters of Science - Data Science and Management; CGPA: 3.84/4.33 Aug 2023 - Jun 2025
- Thapar Institute of Engineering and Technology** Patiala, India
Bachelor of Technology - Computer Science and Engineering; CGPA: 8.13 Aug 2019 - Jun 2023

TECHNICAL SKILLS

- Programming Languages:** Java (Core, OOP, Collections, Multithreading), Python, C++
- Frameworks & APIs:** Spring Boot, RESTful API Development, Microservices, Flask
- Databases:** MySQL, Sybase ASE, MongoDB
- Build & Tools:** Maven, Git, Postman, JUnit, Mockito, Splunk, ServiceNow, Linux
- ML & AI Technologies:** PyTorch, TensorFlow, scikit-learn, OpenCV, CNNs
- Concepts:** Data Structures & Algorithms, System Design, DBMS, Operating Systems

WORK EXPERIENCE

- NatWest Group (Royal Bank of Scotland)** Hybrid
Software Developer Jul 2023 – Present
 - Engineered end-to-end **Java-based multicurrency transfer** platform leveraging **Spring Boot** microservices, **React/Angular** frontends, and **MongoDB** for seamless currency transactions.
 - Built an **Azure OpenAI**-powered chatbot using **MCP** for tool orchestration, integrating **Application APIs** to deliver real-time UK company insights with fault-tolerant execution.
 - Architected a **Sybase ASE** archival & purging framework using stored procedures and weekly automated jobs, cutting data volume by **50%**; currently leading its migration to **PostgreSQL**, overseeing schema re-engineering and zero-downtime cutover.
 - Integrated **Splunk** and **DX-APM** with **ServiceNow** for proactive incident monitoring; improved automated test coverage to **80%** using **JUnit** and **Mockito**.
 - Drove end-to-end **delivery** for a core banking application, managing stakeholder communication, production support, and timely execution of business requirements within timelines.
- Ericsson India Global Pvt Ltd** Hybrid
Intern – Research and Development Jan 2023 – Jul 2023
 - Led **RHEL 7.9 migration** for the regression test suite, upgrading **TITAN**, **GCC**, and **TTCN** compilers. Automated test-case compilation and virtual-machine setup to ensure 100% compatibility and stable test execution across environments.
 - Enhanced a multi-utility **Flask-based dashboard** for network node connectivity and operational status monitoring. Added analytics modules, optimized backend integration, and redesigned the frontend using **HTML**, **CSS**, **JavaScript**, and **Bootstrap** for real-time performance visualization.

PROJECTS

- MultiCurrency Transfer System (Spring Boot + React + SQL):** Developed a full-stack multicurrency transaction platform with a **Spring Boot** backend and a responsive **React** frontend using **Material UI**. Implemented secure transaction flows and role-based access control with JWT authentication, integrating data persistence through **SQL** databases.
- Style Transfer for Fashion Images (PyTorch):** Built a CNN-based model to transfer garment textures and patterns using residual blocks and instance normalization. Demonstrated creative AI integration for fashion image augmentation.
- Human Detection on Railway Tracks (OpenCV, TensorFlow):** Applied feature extraction and deep learning (**Faster R-CNN**, **YOLOv5**) for real-time obstacle detection; published at IEEE CICT 2022.

PUBLICATIONS

- "A Robust Approach for Real-Time Human Detection on Railway Track," IEEE CICT 2022:** DOI: 10.1109/CICT56698.2022.9997965

ACHIEVEMENTS AND LEADERSHIP

- Youngest Coder Award – **Chhalaang 4.0** (17,500+ participants, 2025)
- Top 8 Finalist – **Walmart Sparkathon 2024** (14,000+ participants , 2024)
- Department Rank 2 – Masters - IIT-IIM Indore
- Winner – StackRoute Capstone Hackathon (2023)
- Special Mention – Chhalaang 3.0 (2024)
- Goldman Sachs Engineering Virtual Program (2022)
- Winner – **Thaparlympics Inter-Year Badminton & Table-Tennis Tournament** (2022, 2019)
- Winner – **Izhaar 2022** (Inter-Year Singing Competition, Hindi Duet Category)
- 2nd Runner-up – **Mudra – Festivista 2021** (Indian Music Category)
